OBJECTIVE

As a full-stack developer, I am looking for a challenging and significant career in a company that gives me an opportunity for self-improvement, while contributing to the organization's growth with my technical and innovative skills.

TECHNICAL SUMMARY

- I have 1 year and 1 month of experience in the software industry as a full-stack developer.
- Have perfect experience in monitoring and writing Graph QL queries.
- Good exposure using the NestJS framework.
- Quick learning, implementation, and easy adoption of new technologies.
- I have done CRUD operations using GraphQL, like mutations, Generating-Types and Queries.
- Managed project activities like requirement gathering, analysis and Resolving.
- Good at resource utilization and task management.

TECHNICAL SKILLS

Programming Languages: Core Java, JavaScript, TypeScript, Cobol, GraphQL, RestAPI.

Framework : NestJS, SpringBoot, AngularJs, GitFlow, GitHub, Docker.

DataBase: MYSQL, MangoDB, TypeOrm, DbGate.

EXPERIENCE

Project Name: Chronos 3.0

DEC 2022 - JAN 2024,

Position: Full stack developer

I played a significant role in the development of a comprehensive product management application using a tech stack that includes Angular, GraphQL, MySQL, and NestJS. In the project, I focused on keeping things running smoothly and adding important features. One of the most important features I added was the ability to scan production orders, which is a crucial part of the app. I also worked on other important features to make the app better and contribute to the project's success.

Roles and Responsibilities:

- ✓ Monitoring deliverables and ensuring timely completion of daily activities.
- ✓ Understanding client calendar to perform activities on a daily basis.
- ✓ Finishing tasks intime .
- ✓ handling the tight deadline and communicating with colleges .

Inventory – Restaurant (Freelance)

OCT 2023 - PRESENT,

Link: <https://arabicmandi-d7ea8.web.app/home/food/Mandi>

Developed a responsive web-based restaurant application, providing users with menu access, location details, and restaurant information. Implemented secure admin login for menu management, enhancing the restaurant's online presence & user experience.

QR – Menu – Inventory

OCT 2023 - Oct 2023,

Link: <https://jaswanthkrish1.github.io/QrMenuInventory/>

I created a QR menu card system for restaurants. Customers scan the QR code to access the menu on their phones, promoting hygiene and reducing the need for physical menu cards, ensuring a safe dining experience.

Portfolio

NOV 2023 - PRESENT,

Link: <https://jaswanthkrish1.github.io/PortFolio/>

My evolving portfolio, live on Git Pages, reflects my commitment to Full Stack Development. It showcases achievements and growth, and it's a testament to my dedication and readiness for future success.
